

Tiana Silva

Software Engineer

github.com/t4tiana | tiana.dev | linkedin.com/in/tianasilva

Summary

Full stack Java/Spring engineer who excels at delivering robust enterprise solutions. Combines technical problem-solving with the collaborative leadership developed as a **Fulbright scholar** across **Asia and the Middle East**. Bridges **technology and community** as an organizer for [Stir Trek tech conference](#) and [Girls Who Code](#) facilitator, bringing a unique perspective to cross-functional teams.

Skills

Advanced: Java, Spring, C#, .NET, Unit Testing

Proficient: REST APIs, React, Vue.js, JavaScript, HTML, CSS, T-SQL, PostgreSQL, ASP.NET, Python, Integration Testing, Git, Docker, Postman, Agile Development, Jira, Confluence

Emerging: MongoDB, Kubernetes, Systems design

Experience

Software Engineer

May 2024 - Present

OCLC

- Deliver **full-stack features** for OCLC's WorldShare Management Services (WMS) SaaS product (Java, Spring, PostgreSQL, React), contributing to a **\$100K+ RFP win**
- Currently ranked **top 3** in merged PRs on 9-person engineering team for **6 consecutive months**, accelerating feature delivery
- Troubleshoot and resolve production issues across WMS **microservices**, often ahead of SLA timelines, ensuring system reliability for **850+ client institutions**
- Built **AI-powered UI modernization prototype** during internal hackathon and **spearheaded team presentation to C-suite**

Subject Matter Expert (Product)

Sep 2023 - Dec 2023

Strive Math (YC S21)

- **Increased client acquisition from 3 to 9** within 4 months by leveraging industry trends and collaborating with co-founders to develop a go-to-market strategy for a new **after-school coding program**
- **Streamlined client interactions** using **JavaScript automations** in **Airtable**, improving communication with **150+ customers** and ensuring timely follow-ups
- **Built client partnerships**, resulting in **5x increase** in student enrollment for company-hosted hackathon within 2 months of onboarding

High School Economics Teacher and Team Lead

Aug 2016 - Jun 2023

International Schools in Taipei, Dubai, and Singapore

- Promoted to **Team Lead** during curriculum changes and implementation of new **learning management system**; led **change management** and met all project milestones ahead of schedule
- **Analyzed over 300 student exams** annually, adapting assessments and improving student performance by **12%** on average each year
- **Created data visualizations** of exam results and presented findings to **senior leadership**, leading to **increased headcount** and a **justified department budget allocation**

Projects - available on Github

Medication Tracker Android App (Java, XML, Android Studio)

Aug 2024

- Currently in progress as a means to learn mobile development. Current MVP features include time-sensitive reminders to take medication, Call Doctor option, and refill notifications in a clean, user-friendly UI optimized for elderly users

Fast and the Furious Film Review Web App (Java, Spring Boot, MongoDB, React)

Jul 2024 - Aug 2024

- Utilized The Movie Database public API to create a React web app for fans of the film franchise. Users can view movie data and write film reviews which are persisted in a NoSQL database. Mobile-first design accommodates different screen sizes and features embedded movie trailers so video can be played without redirecting, improving UX and reducing bounce rate

Storage Auction Web App (C#, ASP.NET, SQL Server, REST, Vue.js)

Apr 2024 - May 2024

- Created user-friendly SPA that allows users to view storage units for auction. Signed-in users can place bids and view bid history, and admin users can edit unit information with data persisted in a T-SQL database. Auction expiration counts down in realtime and automatically sends an e-mail to the winning bidder with details on how to claim unit

Education

.NET/C# Web Application Developer

Jan 2024 - Apr 2024

Tech Elevator

Columbus, OH

Winner: Represent Tech Scholarship. Completed an in-person, full stack coding bootcamp amounting to 800+ hours of coding, learning how to create dynamic web applications using C# and Microsoft development tools

Master of Science, Business and Management

Sep 2020 - Sep 2021

University of Strathclyde

Glasgow, UK

Winner: Best Master's Thesis. Subsequently published in the peer-reviewed *International Journal for Knowledge Management*

Bachelor of Arts, Political Science

Aug 2009 - May 2013

Chapman University

Orange, CA
